

Report dati statistici su Rese Assicurate Aggiornato 2016

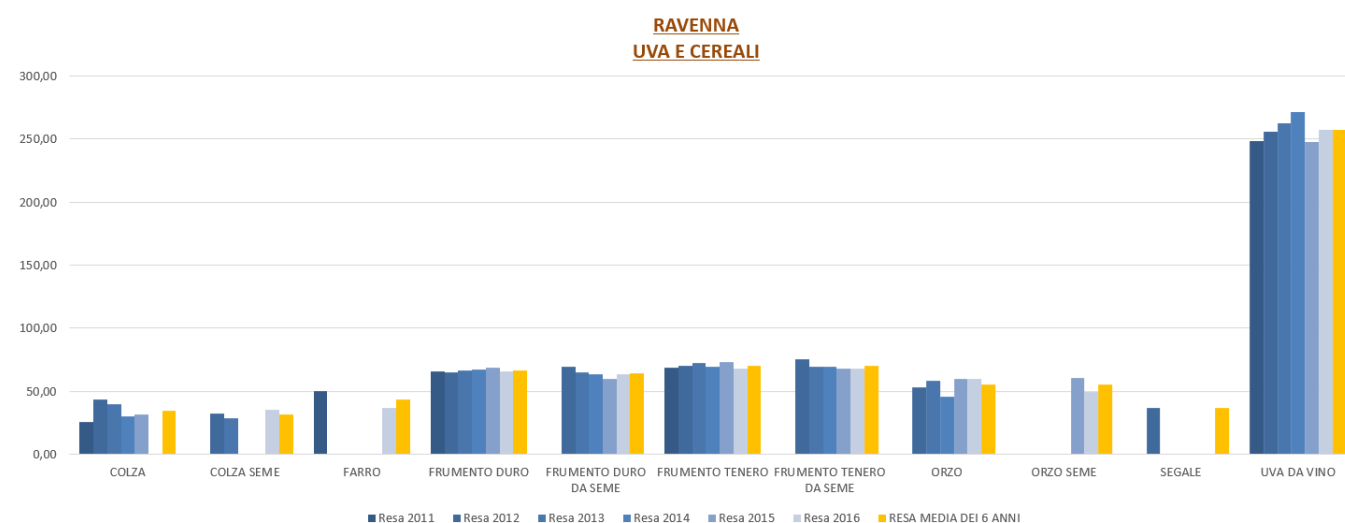

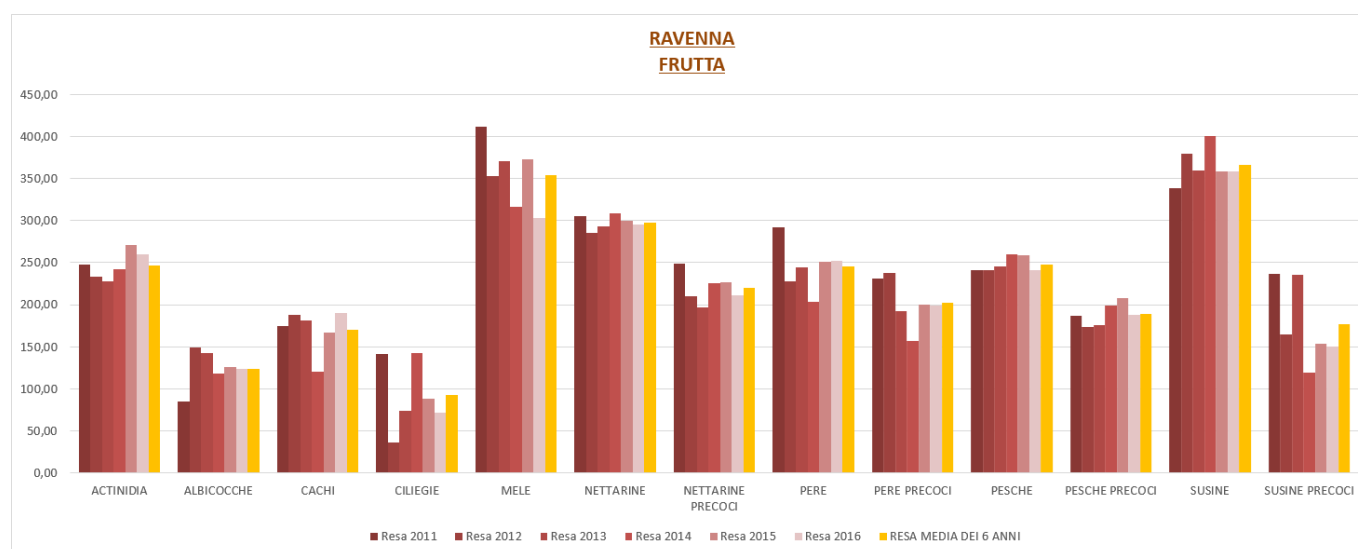

In questo libretto abbiamo voluto rilegare tutti i dati storici presenti dal 2011 all'interno del nostro Condifesa di Ravenna, suddividendo e confrontando le rese assicurate per Comune e per Prodotto a fine puramente statistico.

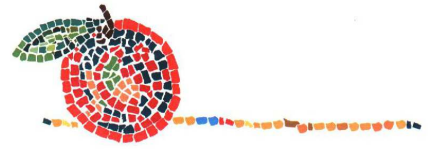

Per ogni prodotto del comune è rappresentata la resa assicurata degli ultimi cinque anni e la media di questi (colore arancione).

La resa media assicurata non sostituisce in alcun modo la resa media aziendale per prodotto comune ai fini della redazione delle polizze o di creazione/generazione del PAI.

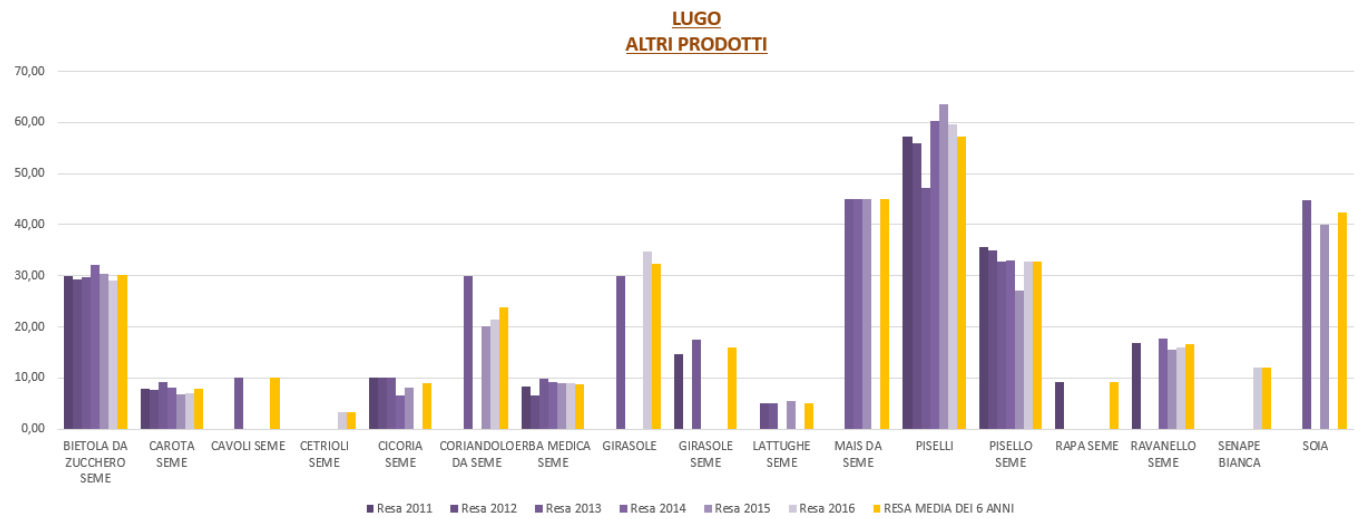

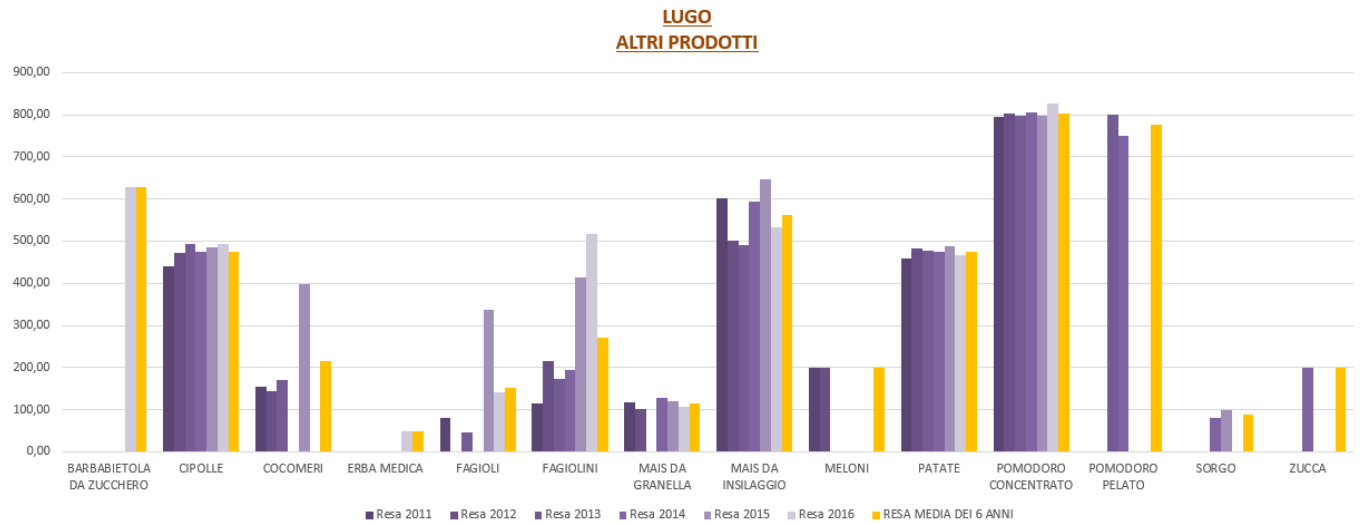

In ordine alfabetico, ogni comune occupa due pagine:

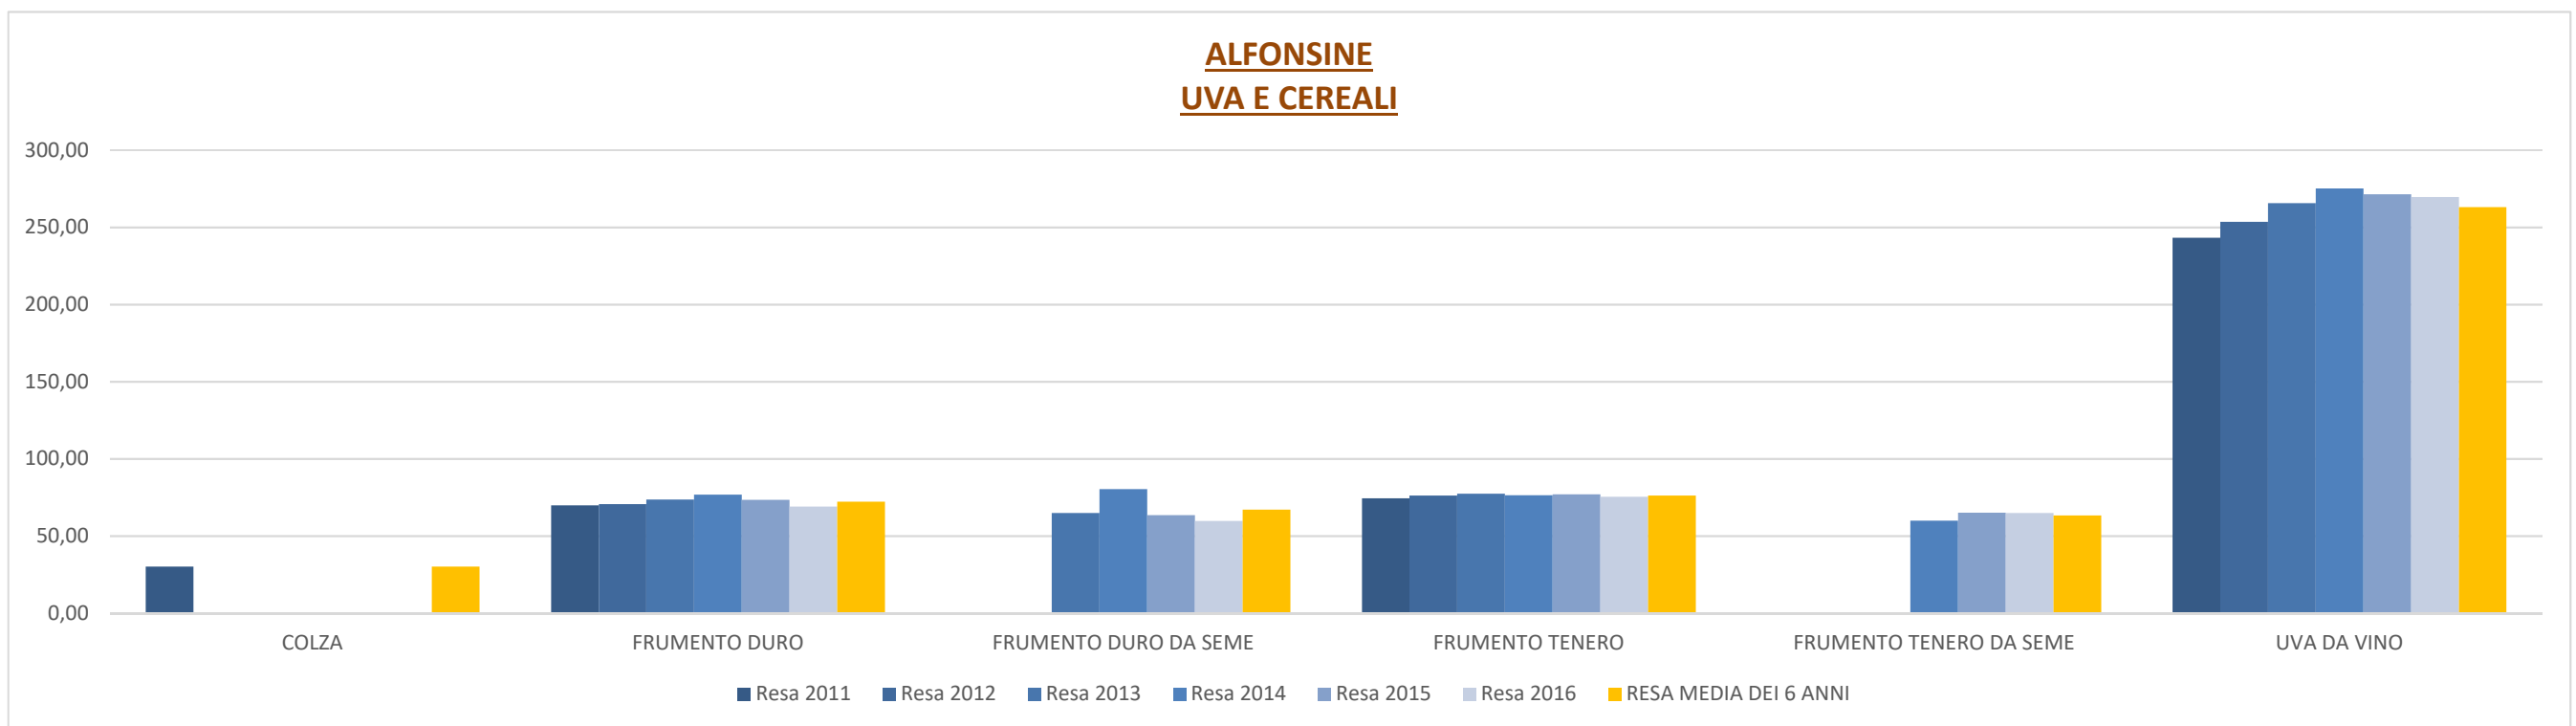

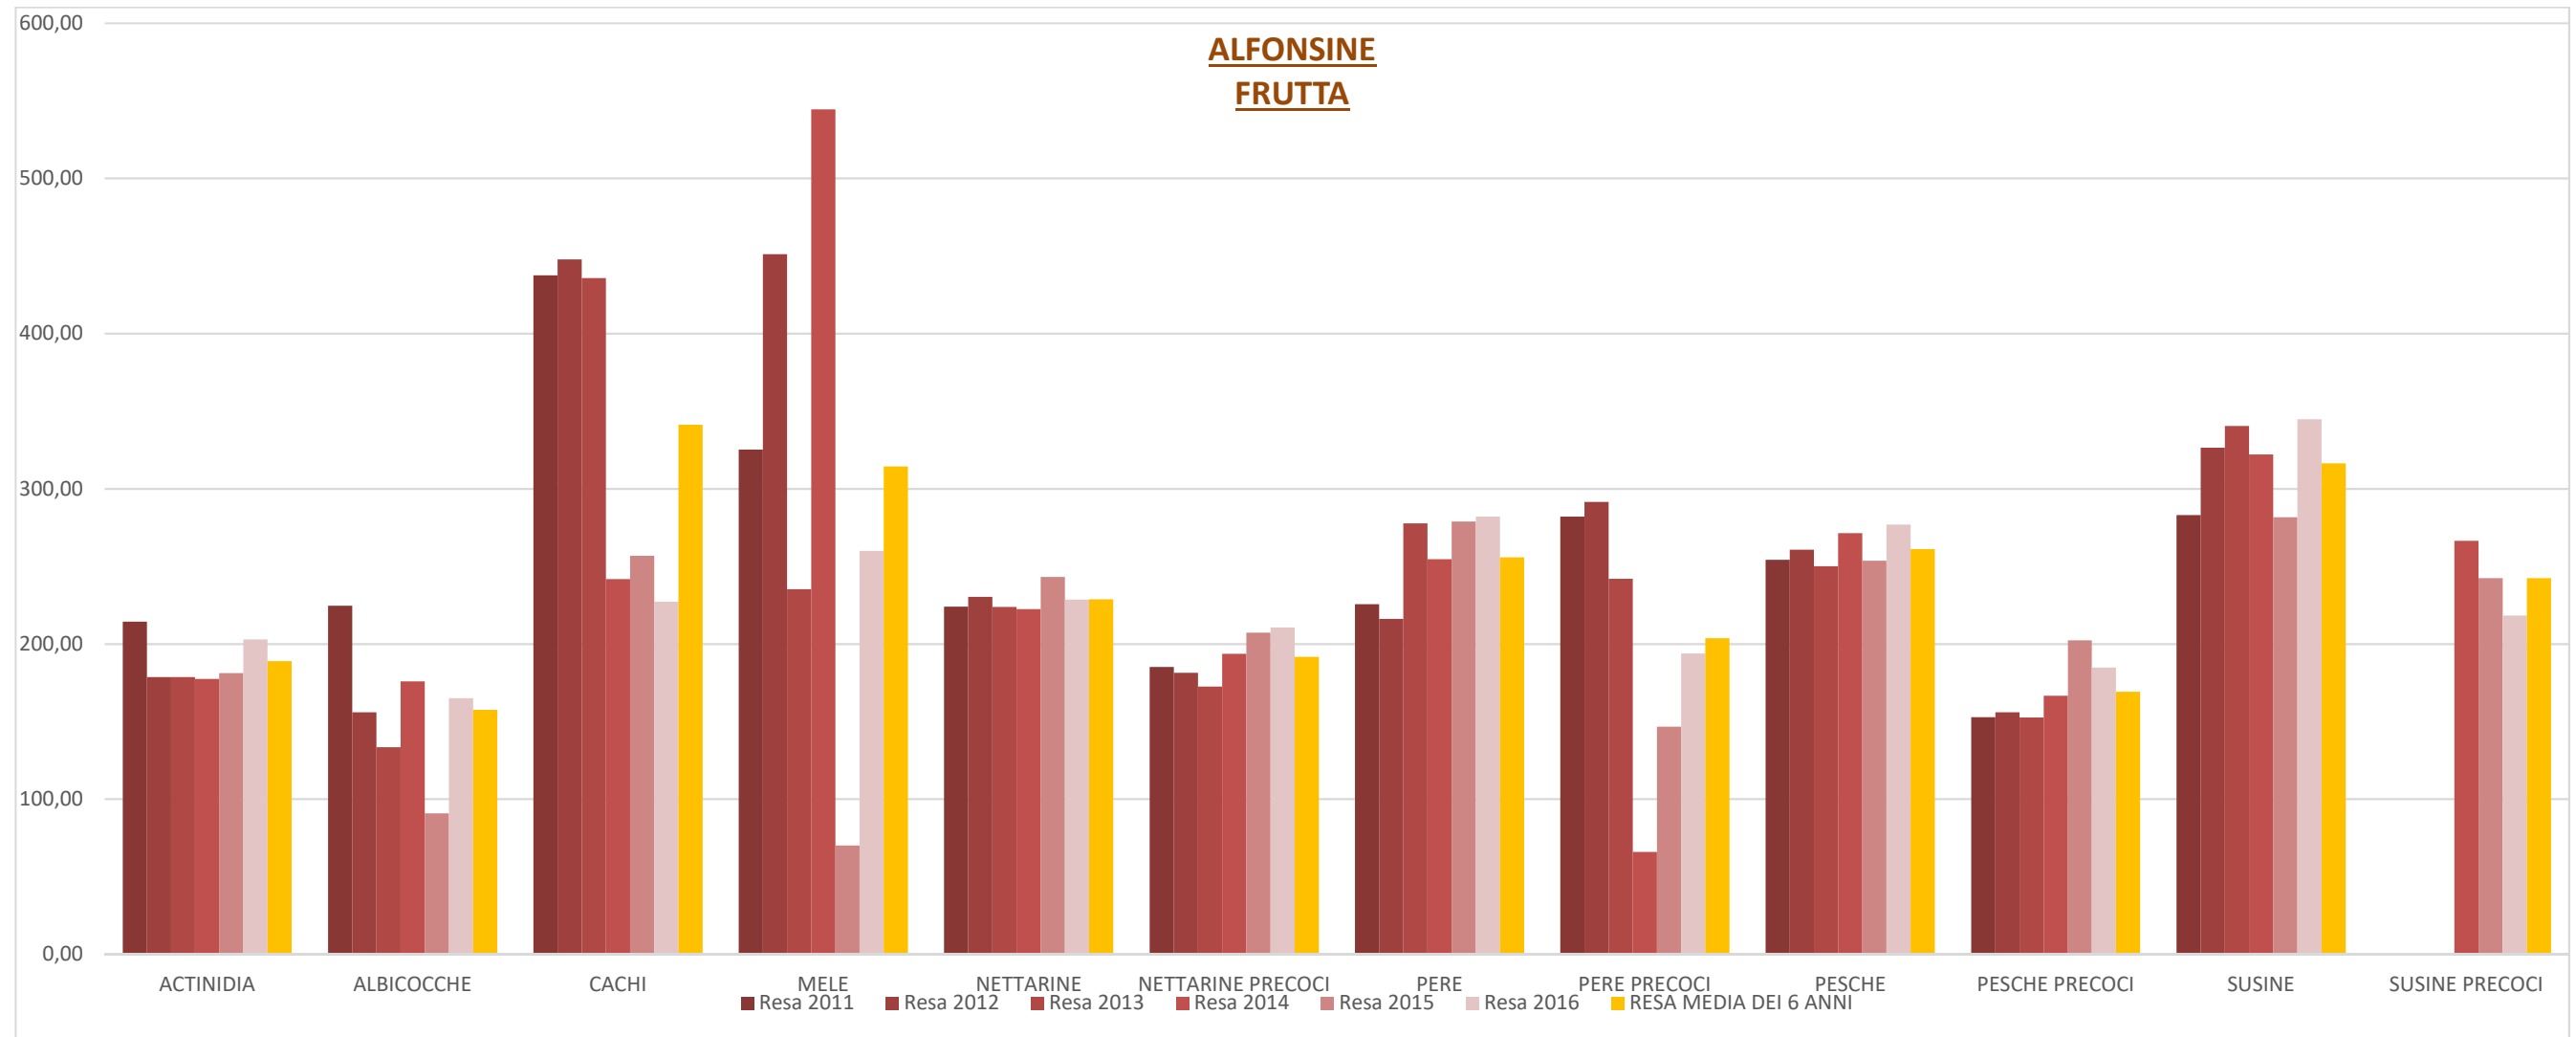

1. Grafico che evidenzia la resa dei prodotti della categoria FRUTTA (colore rosso) e la resa dei prodotti della categoria UVA E CEREALI (colore blu):

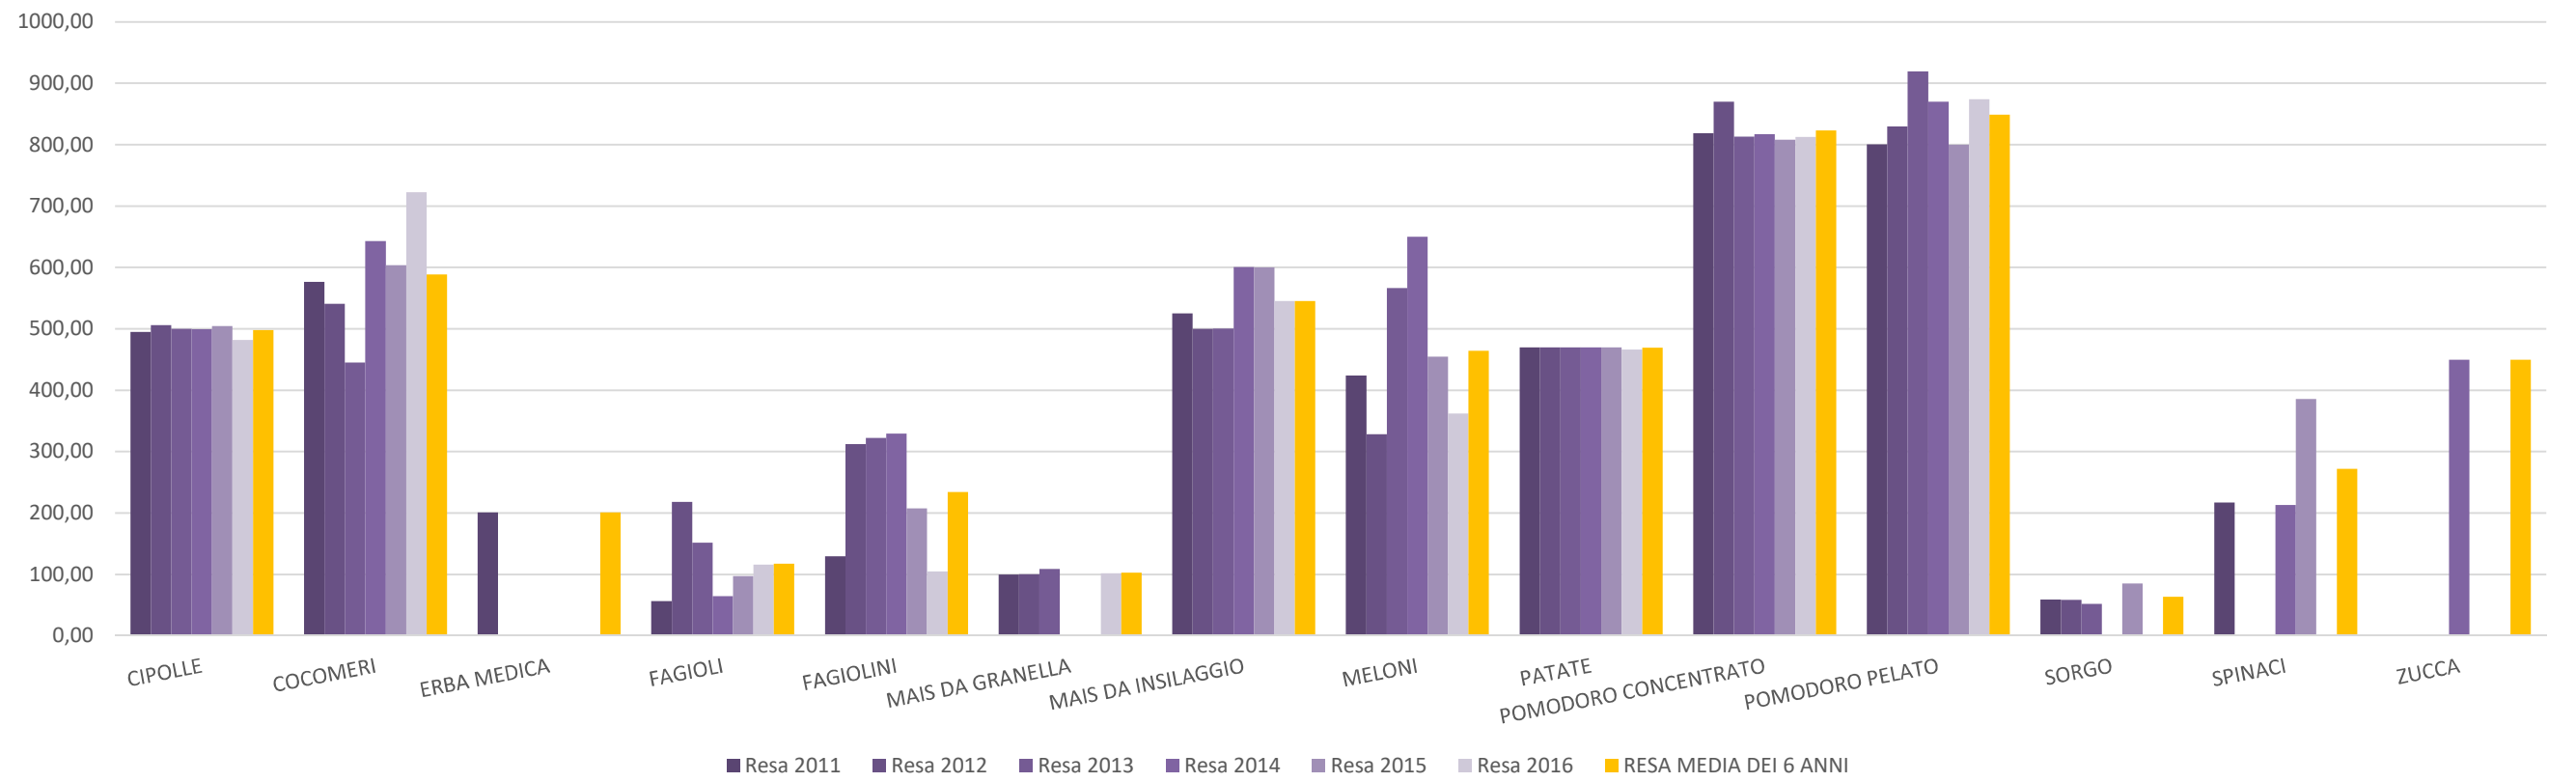

2. Grafico che rappresenta la resa degli ALTRI PRODOTTI (colore viola):
